

Thank You

Helping America Hear Program!

About 15 years ago my father became legally blind due to a combination of cancer + diabetes. Over the past few years his hearing has dramatically declined as well. Knowing that Medicare would not pay for hearing aides, a friend of mine, Cindy Downey, of Eastern Ky University told me about this program.

Thanks to you my father received his hearing aides this past week! It has been a glorious few days for the entire family. My dad finally got to hear my 4 year old son's voice! This has truly impacted our entire family + we can't thank the Foundation enough for this program! We are a new family now!

Even a handful
of sunshine
wouldn't be enough
to thank you. !

Sincerely—
Causa Kelsey
