

Hello! I wanted to share with you the reaction my daughter had once... she received her new hearing aids from applying for a college scholarship from your organization. I can't believe that she would ever have the same type of reaction as she did when she first started using hearing aids and she heard the rain for the first time. Thank You so much for giving my daughter this experience again!!! "I have only gotten new hearing aids 3 times in my life. My first pair when I was 3 years old. My 2nd when I was about 10 years old, and my 3rd pair on Friday. Each time had been extremely difficult to adjust and although it's a bit of a struggle to adjust, the pair that I just received is truly amazing. I have never heard this well in my life. I can hear keys jingling, the microwave beep, and I can even hear my hair next to my ear if the room is quiet enough. And the best part? I got these hearing aids for FREE by filling out a scholarship. I still obviously have trouble hearing at times, but I am truly thankful."
